Object: reference letter.

Dear Gentlemen,

we start to work with Mina Mar Group 6 months ago.

Together with them we have done a great job.

We have a lot of nice meetings with their CEO Mr. Miroslav Zecevic and we explain him our dream: create a Public Company and sell and distribute our products around the World.

Now, we are a joint venture between Drop Company (original parent of Nadia) and Hiru Corporation. We are equal partner shareholders in Nadia, along with Hiru. We will continue to direct R&D and production in Italy, while Hiru will take on the role of broadening distribution of our products outside the Italian market, including the EU and North America. We are very happy with and value their international corporate presence via their offices Canada, London and Belgrade.

The future of Nadia Industries Srl looks decidedly international, thanks to the recent merger with Hiru Corporation, with expansion plans including Eastern European countries, especially Russia.

We recommend without doubt The Mina Mar Group team to all Italian companies that want listing on the US stock market.
