### **Recommendations to use the Mina Mar Group Consulting Services**

Last year, our Company, Shenzhen Mellow Hope Pharm Industrial Co., Ltd., decided to become a public trading company in the United States stock market. Mina Mar Group was recommended to us as a good company to assist us in this accomplishment.

We have been impressed with Mina Mar's abilities in assisting us with these business objectives. They worked to arrange the structure of the company to meet with the U.S. regulations and requirements, and organize affairs in the most beneficial manner for us. They have undertaken many expenses, such as legal work and meeting regulations of the U.S. SEC and Pink Sheets requirements. They visited our company here in China on several occasions, and spent time visiting our factory, offices and research centres to more fully understand our business in order to properly advise U.S. investors of our business model and accomplishments.

They have brought many investors to purchase shares of our public company, HARD TO TREAT DISEAS (Other OTC:HTDS.PK), in the U.S. and guided us in understanding the needs and interests of investors in the U.S. market.

After working with Mina Mar these past months, we have realized how complex the procedures are to become a public company in the U.S., and are well aware that they have given us excellent business advice and undertaken many different tasks to achieve our success in this endeavour.

Very importantly, they have structured our business dealings in a manner that our Company was not required to pay any costs out of our own funds in the process of becoming a public U.S. company.

We would recommend other companies to use Mina Mar Group without hesitation.

Faithfully Yours,

Terry Yuan, CEO  
Shenzhen Mellow Hope Pharm Industrial Co., Ltd..
